OverDrive CURATION MADE EASY

Use Featured lists created by OverDrive school librarians:

- Click the Featured tab in OverDrive Marketplace or go to Collection Development > Recommended Lists on the Resource Center.
- 2. Find and click a **list** you'd like to feature. The featured list will open in OverDrive Marketplace.
- 3. Change the list from the Shop view to the Curate view:
 - a. Locate the URL in your web browser's address bar.
 - b. Highlight OneCopyOneUserAndMeteredAccess (tip: double-click to select easily).
 - c. Replace highlighted text with **Curate**; hit enter on your keyboard.

You'll now only see titles from that featured list that you already own at your school.
